Push/pull hand controls

Jeff Gosling Brake & Accelerator

A hand-operated lever controls braking and acceleration, providing an alternative to using the foot pedals in a suitable automatic vehicle.

Before ordering. Check the lever reach and movement. We can advise on steering aids and pedal protection.

Jeff Gosling Ltd

Push/Pull Brake/Accelerator

Hand controls with indicators

Jeff Gosling Brake & Accelerator with Indicator Switch

Combines push/pull braking and acceleration with an indicator switch on the hand control, bringing another driving function within reach.

Before ordering. Some vehicles also need an indicator interface. We confirm any additional order line before you order.

Jeff Gosling Ltd

Push/Pull Brake/Accelerator With Indicator Switch

Quick-release steering ball

Jeff Gosling Quick Release Steering Ball

Steer with
one hand.

Removable handle.
Clamp stays in place.

A rotating grip supports one-handed steering. The handle can be removed from its clamp when a different driver uses the vehicle.

Before ordering. Try the grip and position. Ask us to demonstrate how the handle releases and locks.

Jeff Gosling Ltd

Twin Flip Folding Left Foot Accelerator

Electronic left-foot accelerator

Jeff Gosling Electric Left Foot Accelerator

An electronic option.

Vehicle-specific
pedal compatibility.

Adds a left-foot accelerator for compatible vehicles with a floor-mounted electronic accelerator pedal. The installation is matched to the vehicle.

Before ordering. We check the original pedal type, changeover controls and suitability for each driver.

DEALER ORDER / 3380

Jeff Gosling Ltd

Left Foot Accelerator For Vehicles With A Floor Mounted Electronic Accelerator Pedal

Hinged accelerator pedal

Jeff Gosling Hinged Accelerator Pedal

Allows the accelerator pedal to fold away when driving with hand controls, creating more footwell space and helping reduce unintended pedal contact.

Before ordering. Ask us to demonstrate the folded position and discuss whether a pedal guard is also needed.

RETAIL FROM

£200

Fitted, with eligible VAT relief

Jeff Gosling Ltd

Hinged Accelerator Pedal (Vehicle Specific)

Quick-release pedal guard

Des Gosling Premium Quick Release Pedal Guard

Pedal
protection.

Quick-release design.
Vehicle-specific fit.

A removable barrier helps prevent unintended contact with the pedals when hand controls are in use. The guard is specified for the vehicle and driver.

Before ordering. Confirm which pedals need covering and how the guard is removed for conventional driving.

Push Brake - Complete With Hill Start Mechanism And Horn

Electronic overring accelerator

Guidosimplex D906GVQR

Accelerate at the wheel.

Quick-release ring.
Brake ordered
separately.

A ring above the steering wheel lets the driver accelerate by pressing with their fingers. The quick-release design allows the ring to be removed when needed.

Before ordering. Pair with a separately ordered brake, such as D907FV on page 10. We check the vehicle interface and ring fit.

Ordering in Motability OLA.

For car dealers using Online Applications (OLA). Confirm the vehicle and adaptation specification with our team before entering the order.

01 Answer the adaptations questions

In the customer's application, answer all three adaptation questions using Yes or No. If any answer is Yes, select **Add adaptation**.

02 Match the product and order reference

Choose the adaptation type from the dropdown. Match the manufacturer, reference and full description to our agreed specification. Overruling 4547 and brake 4038 are separate order lines.

03 Select Motability Station as the installer

Open the **Installer** tab and choose the entry agreed with our team from the dropdown. Confirm the branch with us if unclear. Then press **Add adaptation** to add the selection.

04 Review the complete adaptation package

Add every agreed item and check the current customer contributions. Include any approved grant details before submitting. We can confirm separate interfaces, brackets or upgrades.

05 Coordinate fitting and handover

Submission notifies the installer. Keep the delivery date current. Register the car before fitting, arrange customer familiarisation and collect any adaptation contribution before handover.

CHANGING AN EXISTING APPLICATION?

In Eligibility, Pending or Insurance status, open **Agreement Details** and choose **Modify Adaptation Details** to amend the adaptations.

FULL MOTABILITY DEALER GUIDE ONLINE

Let's find the *right fit.*

Talk to our team before choosing your vehicle. We can demonstrate suitable options, confirm compatibility and coordinate fitting with your dealer.

ABOUT THE PRICES

Retail figures are supplied-and-fitted starting prices with eligible VAT relief. Add 20% VAT where applicable. Vehicle-specific parts, upgrades, collection and the final fitting plan are confirmed in your quotation.

Motability figures are Q4 2026 customer contributions for the listed new-installation package, separate from any vehicle Advance Payment. Eligibility and vehicle fit must be confirmed. Transfers and later-lease installations are quoted separately.

References checked 9 October 2026 against our Q4 Motability price list. The current order system and your confirmed quotation take precedence. Turny Evo retail pricing is available by quotation for the CaroSeat Flex package.

Cover: Autochair boot hoist. Photographs may show optional equipment.
